COMBINATION

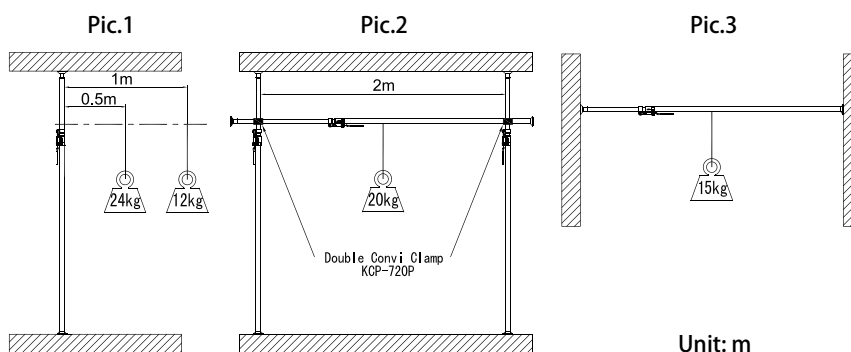

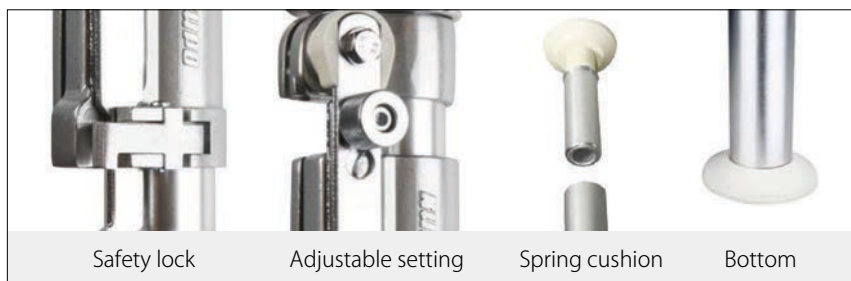

KUPOLE

KUPOLE:

Kupole is an extremely versatile support. It takes less effort and no complicated set-up and tool. The Kupole is fabricated of spring-loaded 2-section aluminum poles and available in 3 models, and the maximum height can reach up to 370cm. Unique spring locking expansion system secures the Kupole firmly in between ceiling and floor, occupying as smaller as 2" diameter space footprint to create a time-saving mounting solution.

LOADING LIMITS:

- Picture 1 & 2 are valid for using with rigid floor and ceilings, with the rubber pad attached to the rubber cover.
- Picture 3 is valid for operating with rigid wall to wall, with the rubber pad attached to the rubber cover.

PIPE CLAMP

ALUMINUM-MAGNESIUM ALLOY SLIP-ON PIPE CLAMP

Made of A535 aluminum alloy, the aluminum slip-on clamps features high strength, corrosion resistance, and lightweight. Polished finish keeps the surface bright and attractive, and the aluminum-magnesium alloy makes the clamps extremely durable, tough, lighter than the iron clamp, and require little long-term maintenance. Flexible, versatile and rigid. Designed for well-known Schedule 40 pipe. Suitable for a wide variety of tubular applications and structures such as film industry, amusement park, playground, recreational venue, contemporary store and restaurant, industrial guardrails, display, shopfitting and much more.

Feature:

- Lightweight and corrosion resistance, ideal for outdoor or harsh environment
- Quick and easy installation with a standard hex key, no special tools required
- No welding; no specialist labor required
- Fitting with 3/8" galvanized steel recessed grub screw with reverse knurled cup point
- Tapered-dome design for holding the set screws over their entire length
- Suitable for Schedule 40 nominal pipe 1-1/4" and 1-1/2"

KUPO X-Bone is an ideal solution for needs on the move, featuring light weight, compact and durable. The patent structure makes it easy to fold and unfold in minutes, and aluminum alloy makes it light but sturdy for frequent usage. Six models with different heights creates versatile display and applications.

X-BONE

Features:

- (1) made of high intensity aluminum alloy (6061), enduring deformation and load for 4.8 -5.0 tons/square meter.
- (2) compact, light weight, easy to build up and break down in around two minutes per set; needless space to archive.
- (3) stylish and slim profile; treated with anodized coating for rust-free.
- (4) different sizes make flexible applications accessible.
